

Olof Lundgren

*PhD student, General Linguistics
Lund University, Sweden*

✉ olof.lundgren@ling.lu.se

EDUCATION

Lund University

M.A., General Linguistics, 2020

Thesis: A phonological reconstruction of Proto-Omagua–Kokama–Tupinambá

*Primary foci: Historical and comparative linguistics, phonetics and phonology,
indigenous languages, contact linguistics*

University of California, Berkeley

Linguistics, exchange year, 2017–2018

Lund University

B.A., General Linguistics, 2015

Thesis: Retroflexion in speakers with uvular /r/ in Skåne

Primary subjects: General Linguistics, Phonetics

Other subjects: Latin, Icelandic

University of Iceland

Icelandic, Nordkurs summer course, 2014

OTHER WORK EXPERIENCE

LU Accommodation

Housing coordinator, 2015–2020

<http://www.luaccommodation.lu.se/>

I have worked mostly during summers with a range of tasks involving accommodation for international students at Lund University.

Swedish Academy Dictionary (SAOB), 2016

<https://www.saob.se/>

I analyzed and categorized older handwritten dictionary samples semantically. These samples are excerpted from Swedish literature from the year 1520 until 2015, and I also excerpted new samples from older dictionaries.

Lund University

Supplemental Instruction mentor (SI), Spring 2014 – Spring 2015

I mentored 1st year students in Linguistics by organizing and leading group discussions, and providing them with feedback in order to train their analytic abilities, study techniques, and critical thinking.

RESEARCH EXPERIENCE

Lund University

Project assistant, 2020–2021

I worked with data on gender, noun classes and classifiers from over 3000 languages. My work involved correcting this data using published grammatical descriptions. I also supplemented the database DiACL with more lexical data and data on gender.

Lund University

CeDICT Project assistant, Fall 2018 – Spring 2019

<https://projekt.ht.lu.se/cedict/>

I proofread large parts of CeDICT, a Tokharian e-dictionary, and provided meanings in English for many entries based on earlier sources in mainly German and Latin, as well as standardizing parts of the formatting.

Lund University

DiACL Project assistant, Fall 2018

<https://diac1.ht.lu.se/>

I worked with diachronic cultural vocabulary in Indo-European languages, classifying them according to their semantic change, preparing the data for statistical analysis.

UC Berkeley

Supervised Independent Research, Spring 2018

I worked with comparative lexical and phonological data on Zaparoan languages with the goal of reconstructing lexical items and the phonological inventory of Proto-Zaparoan.

UC Berkeley

Supervised Independent Research, Fall 2017

I extracted data from 1950s handwritten fieldnotes on Andoa [anb] (Zaparoan, Peru) into FLEx and provided interlinear glossing and morphological analysis.

Lund University

DiACL Project assistant, 2014

<https://diac1.ht.lu.se/>

I provided lexical and typological data for Welsh and Lithuanian, based on published grammars and dictionaries.

LANGUAGES & OTHER SKILLS

Languages: Swedish (native), English (C2, CAE), French (B1, DELF),
German (intermediate), Icelandic (intermediate)

Computer: Python (basic), LaTeX (intermediate),
Wiki Markup (intermediate), R (basic), Inkscape (basic)
